

# Ready to Use All Year Long

56 step-by-step directed drawing activities for students in Grades K-2 (ages 5-8). No extra prep needed. Simply choose a page, print, and go.

The collection includes animals, fantasy and fairy-tale characters, food, familiar everyday objects, and other kid-friendly themes, giving you plenty of variety to keep students engaged.

## How Each Activity Works

1. Follow the Steps: Students see how a drawing is built step by step using simple lines and shapes.
2. Trace: Students trace the completed drawing, reinforcing hand movements and building confidence before drawing independently.
3. Draw & Color: Students recreate the drawing on their own and then color it.
4. Trace & Write: Students trace and independently write the English word, reinforcing vocabulary and handwriting.

## For Early Finishers

Small themed illustrations and lettering on each page can also be colored, giving students who finish early a meaningful way to continue working independently at their own pace.
